## **RAPID RELEASE HARNESS-800**

### **Cargo Carrying Bag**

The **Rapid Release Harness** is a unique carrying bag that attaches to the Parachute/ Harness System. The **Rapid Release Harness (TPDS-RRH-800)** is manufactured in the United States in a facility that is Federal Aviation Administration (FAA) certified for manufacturing parachute equipment.

The **Rapid Release Harness-800** is designed for HALO-HAHO operations and training with personnel carrying full combat equipment and bundles.

The **Rapid Release Harness-800** can be configured in three (3) different ways to allow for a range of missions.

- High Front
- Low Front
- Low Back

The **Rapid Release Harness-800** may be set up for **Static Line** or **Freefall**.

The **Rapid Release Harness-800** has an optional **Drop-Line System** that easily and safely allows the load to be suspended below the jumper while under canopy then released upon landing or while still in the air in an emergency situation.

The **TPDS-RRH-800 Drop-Line Assembly** can be set up with a Double attachment strap or a Single attachment strap with the use of a quick and easy separating Clevis Hook.

## **Cargo Bag Capabilities and Features:**

### **Physical Specifications:**

#### **Materials:**

##### **Webbing:**

##### **Main Webbing-**

1 23/32" (4.3 cm.) wide Type 8 Mil-W-4088

*Tensile Strength* **4000 lbs. / 1814 kg.**

##### **Top Connectors-**

1 23/32" (4.3 cm.) wide Type 8 Mil-W-4088

*Tensile Strength* **4000 lbs. / 1814 kg.**

##### **Primary Release Handle-**

1" (2.54 cm.) wide Tubular Nylon Mil-W-5625

*Tensile Strength* **4000 lbs. / 1814 kg.**
